### REMARKS

In view of the following remarks, the Examiner is respectfully requested to withdraw the rejections and allow Claims 1-23, the only claims pending and currently under examination in this application.

Claims 1, 2 and 5 have been amended to correct typographical errors. Claims 7, 11 and 14 have been amended to clarify that the features have an intensity that is higher or lower relative to a toggle point, support for this amendment being found in the specification at page 12. Finally, the abstract has been amended to remove sentences and thereby bring it into conformance with size regulations. As these amendments introduce no new matter, their entry by the Examiner is respectfully requested.

### Objection to Specification

In view of the above amendment to the abstract, this objection may be withdrawn.

### Objection to Claims

Objections were raised against Claims 1 and 2. In view of the above amendment to these claims, this objection may be withdrawn.

### Rejection of Claims 2, 5 and 7-19 under 35 U.S.C. § 112, second paragraph

Claims 2, 5 and 7-19 have been rejected under 35 U.S.C. § 112, 2<sup>nd</sup> ¶ for an asserted lack of clarity. In view of the above amendments, it is submitted that this rejection may be withdrawn.
